

ACLS and PALS 2021 Course Schedule

Objectives: At the end of the skills session the student will correctly demonstrate skills in: use of OPA and NPA airways, use of the Zoll Defibrillator, participate as a team member and leader of many practice codes, and demonstrate quality BLS skills utilizing the SmartMan feedback manikin.

This is an [independent study program](#). Once having obtained the online program, students should study the book found within the online program, then complete all practice scenarios and the course exam online. Course completion eCards are issued after completion of a skills session.
